

Senior Director, Global Regulatory & Trade Compliance

Midsized Pacific Northwest based Aerospace and Defense Corporation seeks a senior leader to direct global regulatory and trade compliance processes that ensure operational compliance with ITAR, EAR, and related regulations. Requirements for the position include substantial experience in the aerospace/defense business sector that includes global operations and complex product mix. Demonstrated ability to lead a diverse and geographically separated team of professionals tasked with implementation of ITAR and EAR compliance processes is a prerequisite. The company embraces a collaborative and team oriented culture. Leadership skills must include the ability to build and manage relationships that achieve results without direct reporting lines. Position reports to VP/General Counsel with strong visibility and interaction with Board of Directors. Frequent international travel to Europe will be required. Compensation includes competitive base plus annual incentive. Interested applicants contact Bruce Jensen at bjensen@jensencooper.com or call 425 637-5656.
